Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 1 objected to because of the following informalities: "oscillate" spelling/typographical error. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Roberg (EP 0631717 A1).

Prior art discloses:

chopper fig 9, as it is shown in the marked up drawing below;

it is noted in re cl. 1 & 4, that the rotatable chopper (ref 3) receives material from left side, just below the counter blade / shear blade (shown in fig 9), therefore the step shaped shoulder or vibrating toothed conveyor is in the same housing.

a supporting structure (vehicle wheels & frame), threshing & separating assembly, cleaning assembly (cl. 4);

The functional recitation of cl. 14, are met by the structure disclosed by the prior art; it is noted that a functional recitation must be expressed as a "means" for performing the specified function, otherwise the intended use of the device does not differentiate the claimed apparatus from the prior art apparatus satisfying the claimed structural limitations.

Response to Arguments

4. Applicant's arguments with respect to claims 1-14 have been considered but are moot in view of the new ground(s) of rejection.

Examiner noted that applicant amended rotatable "rotor" to be "chopper". Accordingly the more detailed rejection above reflects this and any other amendments made to claims.

Applicant's argument regarding the translation of ref 3, or Strohhäcksler, it is noted that it is a cutting/chopper device; also, applicant's attention is directed to the counter / shear knife shown in fig 9, which clearly indicates that ref 3 is a chopper as claimed.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Wolters, Grywachski et al, Schrattenecker, Gaeddert ('123, '687), Alois.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
